This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Acids, on the neutral combinations of saccharine matters with the. By M. Berthelot 88
„ on the combinations of saccharine matters with: Mannite. By M. Berthelot 597
„ organic, transformation of various, due to an action of presence. By M. Lassaigne 475
„ phosphoric and arsenic, on molybdate of ammonia as a reagent for. By M. A. Béchamp 477
„ vegetable, on the action of the, on calomel. By M. Bauwens .. 679
Aconitine, toxicological, and pharmaco-dynamic, studies on. By Dr. Van Praag 507
Adulteration of bread. By Dr. A. Normandy 171
„ of cider. *See* Cider
Adulterations of drugs, chemicals, and articles of food, &c., tables of. By Thornton J. Herapath 520, 580
„ of food, on the chemistry of the. By Dr. Hassall .. 120
„ or mixtures of coffee and chicory, a new method of detecting. By John Horsley 72
„ tobacco. By Prof. Crace-Calvert, F.C.S., M.R.A, Turin, &c. 335
Agricultural chemistry. .. 33, 164, 215, 289, 362, 414, 490, 693, 757
„ „ on some points connected with. By Mr. J. B. Lawes and Dr. Gilbert.. 119
„ experiments, on the chemical principles involved in. By Dr. Lyon Playfair, C.B., F.R.S. 693
Albuminised and collodionised glass, photography on. By M. F. Martens 241, 307
Alcohol, benzoïc, and toluïc acid, on the transformation of toluene into. By Stanislas Cannizaro 270
„ diatomic, or, glycol on. By M. A. Wurtz 724
„ extracted from the helianthus tuberosus, or Jerusalem artichoke. By M. Decharmes.. 474
„ note on the fecula and, of the colchicum, (C. Autumnale Linn.) By M. Ferdinand Comar 489
„ of madder, on Borneo camphor extracted from the. By M. Jeanjean 738
„ new, extracted from a peculiar whale oil. By M. Scharling .. 477
„ water, and heat, on the transformation which protochloride of mercury undergoes under the influence of. By M. Berthé .. 745
Alcohols, a new class of, researches on. By MM. Cahours and Hoffmann 400
Aldehyde, caprylic, on the formation of. By M. Bouis 139
Alkalies, action of the, on the sugar in the animal economy. By M. Poggiale 419
„ chloride of zinc, and acids, on the products of the transformation of fecula and lignine under the influence of. By M. A. Béchamp 659
Alkaline stannates, process of preparing. By M. Haeffely 164
Alloys, Prof. Crace Calvert, and Mr. R. Johnson, on 127
Allyle, and compounds of allyle: third memoir on ioduretted propylene. By MM. Berthelot, and de Luca 396
Aloetine, researches on. By M. E. Robiquet 591
Aloine, Mr. T. B. Groves, on 763
Alum. *See* Wine, red 763
Aluminium, on. By the Rev. J. Barlow, M.A., F.R.S., V.P., & Sec. R.I. 458
„ on a new and advantageous process for preparing. By M. Rose 266
„ on the position of, in the thermo-electric scale. By George Gore, Esq. 556
„ and some simple bodies, metallic and non-metallic, new method of preparing. By M. H. Sainte-Claire Deville .. 268
„ and sodium, double fluoride of, on the transformation of, into aluminate of soda. By M. Cl. Tissier 742
Ammonia, molybdate of, as a reagent for phosphoric acid and arsenic acid. By M. A. Béchamp 477

PAGE

Ammonia, and the nitrates, observations on the absorption of, by cryptogamic vegetation. By M. A. Bineau 490
„ sulphite of, on the products of the decomposition of nitrobenzine and nitro-toluene by. M. Hilkenkamp 277
Ammonium, bromide of, preparation of, for photographic purposes. By M. Engelhardt 190
„ chloride of, notes on the physiological and therapeutic effects of. By Alexander Lindsay, M.D. 428
Amyle, methyle, ethyle, and, iodides of, action of chloride of mercury on. By M. Schlagdenhauffen 595
Analysis by measure, notes on. By Mr. R. W. Pearson, .. 14, 77
„ table for calculations in. By T. J. Herapath, Esq. 641
Analytical chemistry 98, 147, 477, 530
Animal chemistry 761
Animal phosphoresence. By T. J. Herapath 17
Animals, researches on the composition of muscles in the series of. By MM. A. Valenciennes and Fremy 224
Antimonial poisoning, on; a physiological and experimental study. By B. W. Richardson, M.D. 615
Antimony, contributions to the history of. By M. J. Lefort 154
„ and lead, sulphurets of, new modes of assaying. By M. A. Levol 530
„ protochloride of, on the precipitation of, by water. By M. E. Baudrimont 536
Apparatus, new chemical and philosophical, notices of 256
Arsenic, experiments on the compounds of tin, with. By Mr. E. Haeffely 126
„ on the preparation of seeds with. By M. Boussingault 372, 414
Artichoke, Jerusalem, helianthus tuberosus, an alcoholic liquid extracted from the. By M. Decharmes 474
Atmosphere, on the condition of, during cholera. By Dr. R. D. Thomson 121
„ *See* Nitrogen

Bank note slag, on the composition of. By F. W. Griffin, Ph.D .. 350
Beer, means of detecting picric acid in. By M. Pohl 627
Beer yeast, on the effect of, on a diabetic patient. By M. Baudrimont .. 766
Bibliography:—
The Commercial Handbook of Chemical Analysis; or, Practical Instructions for the determination of the intrinsic or commercial value of substances used in manufactures, in trades, and in the arts. By Dr. A. Normandy 64
The Farmers' Manual of Agricultural Chemistry, with instructions respecting the diseases of cereals, and the destruction of the insects which are injurious to those plants. By Dr. A. Normandy .. 117
Edinburgh New Philosophical Journal, new series, No. IV. .. 117
A Catechism of Chemical Philosophy; being a familiar exposition of the principles of chemistry and physics, in their application to the arts and comforts of life. By John Horsley 254
The art of perfumery and the methods of obtaining the odors of plants; with instructions for the manufacture of perfumes for the handkerchief, scented powders, odorous vinegars, dentrifices, pomatums, cosmetics, perfumed soap, &c. By G. W. Septimus Piesse .. 255
The first step in chemistry. A new method for teaching the elements of the science. By Robert Galloway, F.C.S. 319
A Manual of Electricity; including galvanism, magnetism, diamagnetism, electro-dynamics, magneto-electricity, and the electric telegraph. By Henry M. Noad, Ph.D., F.C.S., &c. 320
A Manual of Photographic Chemistry, including the practice of the collodion process. By T. Fredk. Hardwick, late demonstrator of chemistry in King's College. Third Edition. 767
On Agricultural Chemistry and the nature and properties of Peruvian guano. By J. C. Nisbet, F.G.S., F.C.S. Fourth Edition. .. 768

PAGE

Bismuth, on the determination of, by weight and by volume. By R. W. Pearson 330
Blood, on the action of chloroform on the. By Dr. C. T. Jackson .. 544
Blow-pipe, on the coloring effects produced by nitrogenous substances on the flame of the. By MM. Vogel and Rischauer 734
Blow-pipe, testing by the, table showing the behavior of substances with reagents, and for. By T. J. Herapath 10, 74, 135, 196, 260, 326, 388
Bones, human, presence of vivianite in. By M. J. Nickles 340
Bread, on the composition of. By Dr. Maclagun 120
„ adulteration of. By Dr. A. Normandy 171
„ on the utility of bran in, as tending to aid intestinal evacuations. By M. C. Saucerotte 632
Brine, on the poisonous properties of 506
Brown, Vandyke, on the composition of. By Dr. Rowney 64
Brucia and strychnia, on testing for. By Mr. John Horsley 707

Cadmium, on the double salts of, and the organic bases. By J. Galletly 650
„ on the oxalate of oxide of, and on the sub-oxide of that metal. By M Vogel, Jun. 204
Calomel, on the action of the vegetable acids on. By M. Bauwens .. 679
Camphor, Borneo, extracted from the alcohol of madder. By M. Jeanjean 738
Caoutchouc, on a disease peculiar to those who work in. By M. Delpech 566
„ on the extraction of. By M. Weddell 31
Carbon, oxide of, conversion of, into formic acid. By M. Berthelot .. 279
„ sulphuret of, contributions to the history of. By M. Schlagdenhauffen 646
„ sulphuret of, on the employment of, as a means of extracting fat from bones and the oil of oleaginous seeds, and for scouring wool. By M. E. Deiss 413
„ sulphuret of, on the preparation of the oils of croton tiglium, laurel, and nutmegs, by means of. By M. Lepage 703
Carbonates, earthy, on the solubility of various metallic oxides, and, and on some reactions presented by their solutions. By M. A. Bineau 153
Carnallite, a new mineral. By Heinrich Rose 716
Catalytic force, on the bodies whose decomposition takes place under the influence of what is termed. By MM. Thenard 17
Cedar wood drawers, on the injurious effects of. By Dr. John Fleming .. 314
Cement, process for the formation of a very solid, by the action of a chloride or oxide of zinc. By M. Sorel 161
Cements, hydraulic lime and silicious stones, theoretical summary on the action of the alkaline silicates in the artificial production of. By M. F. Kuhlmann.. .. .. .. 211, 279
Champignons, poisonous, chemical researches on. By M. Gobley .. 465
Charcoal, on the decomposition of the nitrates by. By M. Vogel, Jun. .. 159
„ manufacture and cost of, for sanitary purposes, notes on the. By E. H. Durden, F.C.S. 284
„ peat, peat and lime, an account of some experiments made to determine the relative deodorising powers of. By Edmund Davy, F.R.S., &c. 449
„ peat, on the comparative value of peat, and, for agricultural purposes. By E. W. Davy, A.B., M.B., M.R.I.A., &c., Dublin 338
„ on platinised. By Dr. John Stenhouse, L.L.D., F.R.S. .. 42
„ and silicium, crystallised, general method for the production of some fixed simple bodies by means of their volatile combinations. By M. H. Saint-Claire Deville 357
„ wood, freshly calcined, on some new properties of. By M. Moride 158
Chemical philosophy 17, 79
Chemistry, agricultural 33, 164, 215, 289, 362, 414, 490, 693, 757
„ „ on some points connected with. By Mr. J. B. Lawes and Dr. Gilbert 119
.. of the adulterations of food. By Dr. Hassall 120

Chlorites, spontaneous transformation of hypochlorites into, and on chlorometry. By MM. J. Fordos and A. Gelis 147
Chloroform, on the action of, on the blood. By Dr. C. T. Jackson .. 544
Chlorometric process, new. By M. Noellner 98
Chlorometry, on, and on the spontaneous transformation of hypochlorites into chlorites. By MM. J. Fordos and A. Gélis 147
Cholera, on the condition of the atmosphere during the. By Dr. R. D. Thompson 112
Cider, its manufacture and preservation: the adulterations which are practised with it, and the means of ascertaining them. By M. Feron 481
Cinnabar, manufacture of, at Idria. By M. Huyot 107
Cinnamon, essence of, on the artificial production of. By M. L. Chiozza 395
Cobalt, crystallised phosphate of protoxide of. By M. Boedecker .. 100
Coffee and chicory, a new method of detecting adulterations, or mixtures of. By John Horsley 72
Colchicum, (C. Autumnale Linn.) note on the fecula and alcohol of the. By M. Ferdinand Comar 489
„ poisoning by; reactions of colchicine. By Dr. Casper .. 508
Collodion, caustic 572
„ methylic 40
„ moist and dry. M. Dupuis on 240
„ a negative silver bath for. By M. Belloc 309
„ on paper. By M. Stephane Geoffray 497
„ process, on an easy method of transferring to waxed cloth, photographic proofs originally obtained by the. By MM. Sire, Brun, and Chapelle 190
Collodionised and albuminised glass, photography on. By M. F. Martens 241, 307
Colorimeters, improved. By Thornton J. Herapath 393
Coloring matter, green, on the production and preparation of a. By M. Verdeil 210
Colors, theoretical and practical studies on fixing, in dyeing. By M. F. Kuhlmann 537
Copaiba, on wood oil, a substitute for. By Daniel Hanbury 311
Copper, action of glucose on salts of, in presence of the acetates; contributions to the history of saline double decomposition. By M. Alvaro Reynoso 79
„ native argentiferous, from Lake Superior, on the presence of mercury in the ore of. By M. Hautfeuille 715
„ oxychloride of, atacamite, on the action of heat on. By F. Field 674
„ and soda, on a double hyposulphite of. By M. W. Schutte .. 677
„ and zinc, on the ammonio-sulphate of. By Thornton J. Herapath 394
„ and zinc, salts of, action of sulphuretted hydrogen on. By Prof. Crace-Calvert 1
Croton tiglium, laurel, and nutmegs, on the preparation of the oils of, by means of sulphuret of carbon. By M. Lepage 703
Crystalline forms of some chemical compounds, researches on the. By M. C. Marignac 411

Dead Sea, researches on the variations which the water of the, appears to undergo in its composition By M. Boussingault 750
Decolorising syrupy, and other solutions, on a new process for. By Mr. R. W. Pearson 15
